

# SIMPLY NAKED

**chardonnay** fresh & vibrant

## fruit-forward

Today's wine consumers are demanding lighter and more fruit-forward flavor profiles. Simply Naked offers a complete lineup of unoaked wines to showcase the true expression of each varietal, letting the purity of the fruit shine through.

These wines are clean, fresh, and straightforward, but they're anything but simple. Making great wines without using oak to influence the taste means the winemaker must begin with high-quality, premium fruit sourced from the best regions in California and take great care in developing wines that are fruit-forward, yet balanced and structured.

## winemaker notes

We have chosen not to age our wines in oak barrels to allow the crisp fruit flavor and true varietal characteristics to shine through. This Simply Naked Chardonnay is fresh and vibrant with tropical fruit, citrus, and pear notes. It is light-medium bodied with layers of melon, fig, and a touch of honey.
